

Week of Prayer

Join us August 8th-14th

Lifting up SAM Academy in Pucallpa, Peru

Sunday

Thank you for praying with us for SAM Academy and the many beautiful missionary families we serve here in Pucallpa! Pray that we may serve the missionaries of this field well and that, in turn, their work may continue because of our service to their children. Pray that our focus as a school community will always be to love the Lord and share the love of the Lord.

Monday

Pray for the families of our students who have answered the Call to bring Christ to the lost of Peru and serve the Peruvian people. This year we serve families with ties to South America Mission, Pioneers, IMB, Ethnos 360, AMG, and Mision Suiza, as well as national ministries to the indigenous and local congregations. These ministries each serve in different roles but all with the same goal of bringing God's Word to the far reaches of Peru and discipling His people to continue carrying that Word.

Tuesday

Please pray for our administrator, Mike Brown, and our principal, Bill Carrera, as they seek to lead our school through a successful year. Pray for creativity, energy and flexibility for our teachers, many of whom have separate ministries on the side, as they navigate teaching whatever the year ahead brings.

Wednesday

Pray for the political and economic situation ahead as Pedro Castillo has been confirmed as the new president. Already the economy has felt major hits and many of our Peruvian neighbors face challenging days ahead. We pray his election will not change the status of foreign visas in the country but that his term will be one of peace and stability.

Thursday

Ask God to protect our students and families as Covid is still a major threat in this country. Hospitals do not have the resources to battle the virus, and regulations still limit group meetings and mandate double-mask usage in public places. Pray for students across the country as so many Peruvian kids are desperately behind from lack of schooling during the pandemic. We have been given approval to meet in-person and we pray for a productive year back together in one place!

Friday

Pray that as a school we may be intentional in shining as a light in our community despite the difficult circumstance surrounding this country. Pray we can again be involved with our neighboring schools and seek out opportunities to witness well for the Lord as a school. Pray our kids may know no borders in their friendships and relationships.

Saturday

Ask that our students may grow and thrive academically this school year, but even more that each may know Jesus as their Savior. Pray with us that wherever their paths lead, each of our students will make a difference in the world because of their love for Christ
